

INICANDO SESION COMO ADMINISTRADOR

INICIANDO SESION COMO USUARIO NORMAL

AGREGANDO USUARIO ADMIN

The screenshot shows the Visual Studio IDE with the 'FormAdministrador' application running. The application features a table with user data and a 'Crear Usuario' dialog box for adding new users.

Table Data:

	id	fullname	username	password	userty
1	Daniel M...	dmq	dmq	Admin	
2	Jose Gu...	hilux	hilux	Norma	
1...	Walter M...	wmorales	wmorales	Admin	
3...	Los Tem...	NP300	NP300	Norma	

FormAdministrador Dialog Box:

- Nombre completo:** usuario admin
- Nombre de usuario:** admin
- Contraseña:** admin
- Tipo de usuario:** Administrador
- Eliminar Usuario:** Selecciona usuario en la tabla, luego haz click en eliminar.

Message Box: Usuario creado correctamente. Aceptar

Visual Studio Interface: The background shows the Visual Studio IDE with the 'FormAdministrador' application running. The 'Run' button is visible, and the status bar indicates 'Build succeeded at 02:12:53'.

AGREGAR NEGOCIO COMO ADMINISTRADOR

The screenshot shows the Visual Studio IDE with the 'FormAdministrador' application running. The application has a tabbed interface with four tabs: 'Usuarios', 'Negocios', 'Productos', and 'Ordenes'. The 'Negocios' tab is active, displaying a table with the following data:

idbusiness	name	description
1	Pizza Hut	Venta d...
18	Cane Ca...	Venta d...

Below the table, there is a form to add a new business. The form has the following fields:

- Nombre del negocio**: Input field containing 'llaollao'.
- Descripcion del**: Input field containing 'venta de helados'.
- Eliminar negocio**: A button to delete a business.
- Ingresa ID del negocio a eliminar:**: Input field for the business ID to be deleted.

A modal dialog box is displayed in the center of the screen with the text 'Negocio creado correctamente' and an 'Aceptar' button.

The bottom status bar shows 'Build succeeded at 02:12:53 (2 minutes ago)'.

ELIMINAR NEGOCIO COMO ADMIN

The screenshot shows a Windows desktop environment. In the background, a Microsoft Word document titled 'Document1 - Word' is open. Overlaid on top of the Word document is a Visual Studio Code window showing a build log with the message 'Build succeeded at 02:12:53'. In the foreground, the 'FormAdministrador' application window is open. It features a tabbed interface with 'Usuarios', 'Negocios', 'Productos', and 'Ordenes'. The 'Negocios' tab is active, displaying a table with the following data:

	idbusiness	name	description
	1	Pizza Hut	Venta d...
	18	Cane Ca...	Venta d...
▶	22	llaollao	venta de...

Below the table, there is a form for deleting a business. It includes a button labeled 'Eliminar negocio'. To the right of this button is a text input field with the placeholder 'Ingresa ID del negocio a eliminar:' and the value '22'. Above this input field is another form section with labels 'Nombre del negocio' (value: 'llaollao') and 'Descripcion del' (value: 'venta de helados'). A small dialog box is also visible, displaying the message 'Se eliminó el negocio y su información' with an 'Aceptar' button.

AGREGAR PRODUCTO COMO ADMIN

The screenshot shows the Visual Studio IDE with the 'FormAdministrador' application running. The application has a tabbed interface with 'Usuarios', 'Negocios', 'Productos', and 'Ordenes'. The 'Productos' tab is active, displaying a table with the following data:

idproduct	idbusiness	name
1	1	Pizza personal
3	1	Pizza suprema

Below the table, there are two main sections:

- Agregar Producto:** Contains a form with 'Ingrese el IdBusiness' (set to 1) and 'Nombre del producto' (set to 'Pizza otra').
- Eliminar Producto:** Contains a form with 'Selecciona en la tabla el producto a borrar' (set to 1).

A success message dialog box is displayed: 'Producto creado correctamente' with an 'Aceptar' button.

The background code in the 'addressDAO.cs' file shows a catch block for an exception:

```
catch (Exception e)
{
    MessageBox.Show(text: "Intentalo de nuevo");
}
```

The status bar at the bottom indicates 'Build succeeded at 02:12:53'.

ELIMINAR PRODUCTO COMO ADMIN

Visual Studio interface showing the 'FormAdministrador' application. The 'Productos' tab is active, displaying a table with product details. A dialog box prompts for 'IdBusiness' (1) and 'Nombre del producto' (Pizza otra). Below are buttons for 'Agregar Producto' and 'Eliminar Producto'. A second dialog box prompts for 'Selecciona en la tabla el producto a borrar' (7). A third dialog box confirms the deletion: 'Se elimino el producto y su informacion' with an 'Aceptar' button. The background code shows a C# file with a try-catch block for an exception.

idproduct	idbusiness	name
1	1	Pizza personal
3	1	Pizza suprema
7	1	Pizza otra

Ingresa el IdBusiness: 1

Nombre del producto: Pizza otra

Agregar Producto

Eliminar Producto

Selecciona en la tabla el producto a borrar: 7

Se elimino el producto y su informacion

Aceptar

```
try {  
    // ...
